MacX Video Converter Pro Product Overview

MacX Video Converter Pro - Convert, Download, Edit Video, Make Photo Slideshow, Record Screen

Built in 320+ video and 50+ audio codecs, the feature-rich video converter for Mac lets you convert video to any format for iPhone, iPad, Android mobiles with original quality and 32x faster speed. Make photo slideshow, download YouTube video, record screen, edit video and more.

Highlight Features

- **Convert Video to Any Format, for Any Devices**

With 320+ video and 50+ audio codecs packed in, MacX Video Converter Pro takes care of all of your video and audio converting needs. It gives you the easiest solution to convert web video, films, tv shows, video clip, recorded video to MP4, MOV, MPEG, FLV, AVI, H.264, MKV, M2TS, AVCHD, VOB, MP3, WAV, FLAC, ALAC, etc without compromising quality.

- **Update C32X Faster Speed and Extraordinary Output Quality**

MacX Video Converter Pro makes perfect optimization for HD 1080p and 720p video encoding and decoding. Its built-in High Quality Engine helps to reduce noise and adjust definition, endowing your output video file with the crispest and sharpest image while delivering 32X faster real time converting speed compared to other similar tool.

- **Convert Video to Apple, Android and other Devices**

Infused with 280+ profiles, this Mac video converting software makes it a cinch to transform video for playback on an ever-expanding list of cross platform devices, be it iPhone 5, iPad Mini, Android HTC One, Galaxy S4/Note, Samsung, WP8, Kindle Fire, PSP, Blackberry, etc. This Mac-based video converter tool offers you unbounded video enjoyment on mobile devices, with zero quality loss.

- **Easily Convert M2TS, MTS, MKV, 1080P HD Videos**

As a best-in-class HD video converter for Mac, MacX Video Converter Pro gives you thorough control over you HD videos, helping you convert Multi-track HD video like M2TS, MKV, AVCHD, HDTV BDAV and MPEG-TS and choose any audio language track based on personal needs. It offers you ultimate solution to convert the HD videos to mobile phone compatible format so that you can enjoy them on Android and Apple iPhone iPad.

- **Trim, Merge, Crop, Add Subtitle and Watermark**

Touching up your video is all at your fingertips with the assistance of MacX Video Converter Pro. You can trim video and audio clips, crop frame size, split and merge videos, add watermark to personalize your videos. Besides, it supports Blu-ray and MKV built-in subtitle tracks or you can download AAS/SRT external subtitle files from internet and add it to video.

- **Craft Stylish Video Slideshows from Your Photos**

Embedded with a photo slideshow maker, MacX Video Converter Pro lets you turn your numerous photos no matter wedding or graduation ceremony into a stunning video slideshow and transfer to iPhone, iPad, Android in a few clicks. You can also add background music or voiceover to enrich the output effect of video and then share it with friends or upload to YouTube, FaceBook, blog, etc.

- **Fast Download YouTube Videos on Mac**

The video converter for Mac is also a professional YouTube downloader for Mac, delivering a superb solution for you to download video from YouTube, including YouTube HD videos in 720P or higher. With advanced YouTube Video Download Engine, you can download a music video from YouTube within 30 seconds only and convert the downloaded video to MP4, AVI, WMV, MOV, etc for offline playback on iPhone, iPad, HTC, Samsung, etc.

- **Catch on-Screen Activity with Screen Recorder**

The "Screen Recorder" feature assists you in recording anything shown on your screen, e.g., you can record a game walkthrough or a tutorial for sharing on YouTube, blog, and capture non-downloadable online videos from sites like Hulu, BBC, and more for offline enjoyment. It also allows you to record iTunes DRM video for further conversion and editing without losing quality, whereupon you can have the DRM-protected video you purchased played on any mobile devices.

- **Cat Record Video with Mac's Built-in Camera or External Webcam**

This video converter for Mac also features video recording that excels in creating video clips with Mac's built-in camera or externally connected camera. Its powerful ability to convert the recorded videos to MP4, MOV, FLV, AVI, etc also grants you the freedom to upload the recorded video clips to YouTube, FaceBook and play them on mobile devices as you like.
